Invest in the power of your community

In 2025, CEN successfully held its first share offer bringing solar energy installed on three Newham libraries into public ownership.

Now we're offering you another chance to buy a share in creating affordable, renewable energy in our borough.

By investing in CEN's share offer you will:

- have a voice in the running of a new, collaborative community organisation
- generate clean energy that costs less and cuts the borough's carbon emissions
- build local skills and give more people a part in creating a low-carbon future
